

Genetec

Bringing Intercom and Video Management Systems together

DUETTO GENETEC OMNICAST INTERFACE

You want to know what is going on – on every station

This interface enables you on Duetto stations to access every video stream from the Genetec Omnicast Server. By selecting different video streams you can easily check what is going on in different areas – whether at parking space, entrance hall or at the perimeter.

Smart systems work together

Where security and communication systems are concerned, it is essential for the many different components to work together smoothly. A constant exchange of data, video and audio streams allows systems of Commend and Genetec to utilise their full potential and to deliver the best security solutions.

Easy access to video streams on your desktop station Duetto

Intercom and video screening combined in one compact station

Unidirectional connection from Genetec Omnicast Server to Duetto

First and only desk station interfacing with Genetec Omnicast

Custom User Interface and display possibilities

Duetto – flexible and versatile

Duetto supports users in processing calls, providing instant access to all functions. The corresponding video or CCTV camera image is shown automatically during the call.

Now with the Genetec Omnicast Interface every video stream is only one touch gesture away.

Custom configurable user interface

Using the web interface, you can easily arrange and adjust the user interface to suit your preferences for optimum support in your everyday work. Custom configure your own GUI layout and place video stream windows and direct dialling buttons on the screen to put all your frequently needed functions at your fingertips.

Secure communication systems by Commend

Can you imagine a system that millions of people rely on every day, where every word has to count? This is the world of Commend! Secure, reliable communication is our passion.

As a global market leader with more than 40 years of experience in speech transmission, we provide not just Intercom and video connections with interfaces to third-party systems, we also provide products that open up new possibilities for integrated solutions. Commend is the preferred choice for hands-free voice communication systems all over the world.
