

ParkSol Guidance Range

The ParkSol Guidance Range offers a solution for every environment

Range Overview

- Vehicle Counting & Display
- Zonal Counting & Display
- Intelligent Parking Guidance
- Open Area Guidance & Display

Indicating **free space availability** is a key component of client perception of a centres inherent quality. Those first moments where they are guided into their shopping experience is prime to them being relaxed and receptive to the environment.

Without a massive financial outlay, how do you stay fresh and relevant against newer centres?

Simple; significantly reduce your financial outlay, with ems. Our enhanced solutions fall into 4 distinct tiers of supply -

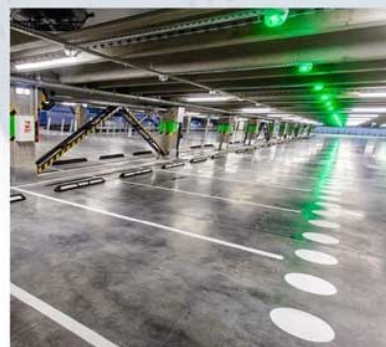

- Information
- Atmosphere
- Safety
- Control

Product for product ParkSol offers a highly competitive and performance based solution for new installs and retrofit.

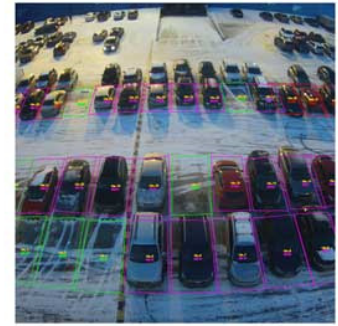

Our TOF Dual Sensor Indicator provides a **3** fold cost saving on steelwork, cabling and installation costs over other solutions and provides class leading clarity, with concise display of bay availability on either side of the row, exactly where it needs to be - above the centre of the road.

All solutions are adaptive to each clients unique environment, they can start small or be a full blown installation on commissioning, the important thing is that they always make a difference to your bottom line.

Your solution partner
