

Help Points

Perfect Communication for Help and Emergency

Our high visibility Help Points have been specifically designed with the public in mind.

They can incorporate all the normal variations and functions available with speech units, i.e: one button (for EMERGENCY); two buttons (for EMERGENCY and INFORMATION); LED for active operation; amplification for noisy environments; black & white or colour camera.

FEATURES:

- › Loud & clear speech
- › Single button - Emergency
- › Dual buttons - Information & Emergency (separate destinations for each button)
- › Vandal & weather resistant
- › Wall, pole or pedestal
- › Tamper alarm feature
- › Voice reassurance message
- › Link to CCTV camera
- › Optional integral camera
- › Public address facility
- › Bespoke Help Points to meet specific corporate identity and street furniture
- › Can be totally remote using GSM and Solar Panels
