

FARGO® DTC1000 Photo ID System

An incredibly simple all-inclusive system for creating ID cards.

The FARGO® DTC1000 Photo ID System is an effortless way for you to produce great-looking photo ID cards. It is a complete, easy-to-use solution that includes a single-sided DTC1000 Printer/Encoder, fully featured Asure ID® Solo™ photo ID software, a USB digital camera, starter supplies and a two-year printer warranty.

Simple and affordable with high-quality output.

The DTC1000 Photo ID System produces high quality, durable and great-looking ID cards at an affordable price – without the complexity of more advanced card identity systems. Setup takes just a few minutes with the included ID software and the printing procedure is extremely easy to learn. The DTC1000 Printer/Encoder is also exceptionally reliable with virtually no maintenance required, allowing you to produce card after card with the minimum amount of fuss.

Versatile, hassle-free card printing.

The DTC1000 prints on several different types of ID cards, including the thin, flexible cards used for health care and transit systems; smart cards with embedded electronics; and rewritable cards that help eliminate the waste of single-use visitor badges.

An easy-loading, all-in-one ribbon cartridge saves time and eliminates the mess and expense of torn, wasted ribbons. Just remove the old cartridge, slide in the new one and you've changed both the printer ribbon and card cleaning roller in one simple step.

Multiple design options.

Asure ID Solo photo ID software supports template design, printing and record management. Also included is plug-and-play Swift ID™, an embedded badging application for basic or mobile card solutions.

Great results from the moment you open the box.

Creating photo IDs that are durable, secure and visually appealing is easy with the DTC1000 Photo ID System. The best choice for a simple, money-saving, all-in-one solution.

- FARGO® DTC1000 Card Printer/Encoder
- Asure ID® Solo™ card design and production software
- USB digital web camera
- Full-color ribbon cartridge
- One pack of three card-cleaning rollers
- 100 UltraCard™ PVC cards
